Declaration of Conformity for Constituent Materials

Dear Customers,

We confirm that the non-coated and anodized semi-finished aluminium products, extruded products, slugs and system components supplied by ourselves conform to the specifications for the materials mentioned in the following directives:

- **2015/863/EU (ROHS III)**
- **2000/53/EU (EU-ELVN End of Life Vehicles Directive)**
- **VDA 232-101 (List of constituent materials subject to declaration)**
- **ACPEIP (China RoHS)**

Particular importance is given to the consideration and strict observance of the modified specifications of the following standards:

- **2011/65/EU**
- **2005/618/EU (Extension of RoHS)**
- **SJ/T 11363-2006 (regarding China RoHS).**

Traces of the elements tantalum, tin, gold and tungsten (cf. Dodd-Frank Act Section 1502: Conflict minerals coltan, cassiterite, gold and wolframite) are present in the alloys supplied by ourselves, but are not used as alloying elements.

We have also published all materials used in the IMDS under the ID 20445.

Finally, in this connection we refer to the following:

There are currently no specific European Harmonised Standards applicable to the above products, for which reason we do not undertake CE marking. Therefore, customers wishing to process, market or put the above-mentioned products into service are exclusively responsible for CE marking and observance of the appropriate directives.
